

RoboComp'2010

28/01/2010 16:42 by admin

The **RoboComp'2010** is a Robotics Competition organized by the **IEEE Robotic and Automation Society (RAS) Tunisia Chapter**, in order to bring together researchers and robotics specialists working on mobile robotics and biped robots.

This event will be held in Tunisia at the **National School of Engineers of Sfax (ENIS) from 23 to 25 April 2010**. The goal of this event is to evaluate contributions in robotics control for classical and widespread problems. More details are available on the competition website:
