

## REGIM-Lab. PhD STUDENT CHARTER

The present Charter defines the conditions of the progress for the doctoral thesis within REGIM-Lab. It specifies the agreement on the choice of the PhD project and the working conditions necessary for the advancement of research. It relies on the freely concluded agreement between the PhD student, his (her) supervisor(s) and the REGIM-Lab. director.

Being a member of REGIM-Lab. means a moral engagement and a social belonging governed by moralities. Members of the REGIM-Lab. take care to keep a good atmosphere and an international visibility based on excellence in scientific and socio-economic environments.

By signing the text of this charter, the PhD student is **committed** to:

- respect the Charter of the Graduate School;
- respect the values of *discipline, efficiency, passion, ethic, openness, team spirit, quest for excellence*;
- respect the *intellectual property* as well as the research *code of ethics*;
- respect the *ISO concept requirements*;
- devote at least 40 hours per week to work on the thesis, and this throughout its duration;
- Update your "Activity report" continuously;
- prepare an "annual PhD thesis progress report " of approximately 30 pages before July 31st;
- be an IEEE member of a society related to the thesis project;
- have an email address of the *firstname.lastname.tn@ieee.org* type;
- have a web account continuously updated in the REGIM-Lab. platform obligatory including the photo, CV and publications;
- write in English the presentations, reports, publications, thesis, etc. ;
- respect all the instructions of assiduity, safety and discipline in the laboratory;
- participate in all REGIM-Lab. activities, and in particular WIMTAs workshops and seminars;
- communicate regularly with his (her) supervisor(s), and this by sending at least a weekly report summarizing his (her) activities ;
- make at least one training in another national or international laboratory;
- participate in calls for national and international scholarships that are recommended by the supervisor;
- written consent of his (her) supervisor(s) prior to submission to a conference or a journal;
- annually publish his (her) research in national and international indexed conferences in the database [www.core.edu.au/coreportal](http://www.core.edu.au/coreportal) ;
- present any accepted paper in a national or international conference;
- publish at least 1 paper in an indexed journal (ISI Thomson) [scientific.thomson.com/mjl/](http://scientific.thomson.com/mjl/);
- submit at least 1 national patent.

**Note:** Failure to meet the terms of this charter will be examined by the REGIM-Lab. council.
